

## **Town of Marathon Landfill Expansion Project**

### **PUBLIC OPEN HOUSE**

**Thursday, February 17<sup>th</sup>**

**4:00 p.m. at Town Hall - Council Chambers**

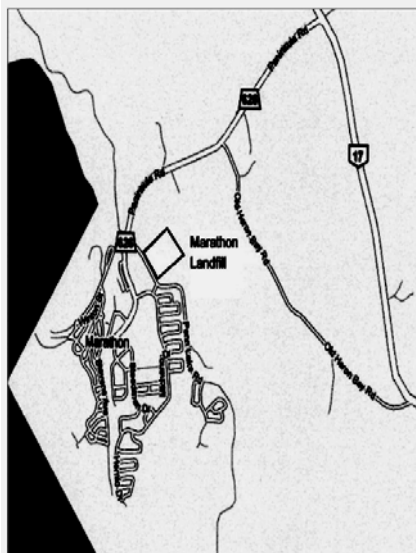

**and 7:00 p.m. at Pic River First Nations - Band Office**

The Town of Marathon and True Grit Consulting Ltd., invite the public, stakeholders and local First Nations to attend an Open House Information Session and learn more about the proposed Landfill Expansion Project.

#### **Environmental Screening Process**

The Town of Marathon is proposing to expand the existing landfill site on Penn Lake Road to provide an interim solution for the municipality's solid waste disposal for the next ten to fifteen years while other longer term solutions are pursued.

The Ontario Ministry of the Environment requires the Town of Marathon to conduct an Environmental Screening Process under the Environmental Assessment Act. The screening process allows for public commentary and feedback on the proposed project to ensure a preferred solution results.

A Presentation will be provided by True Grit Consulting Ltd., the engineering firm retained by the Town to complete the screening process. A question period will follow with opportunity to register comments and concerns.
