

**OES RECOGNIZES
TOWN OF MARATHON FOR EXCELLENCE IN DELIVERY OF
26.53 KILOGRAMS PER HOUSEHOLD OF E-WASTE DIVERTED.**

Ontarians diverted more than 100,000 metric tonnes of out-of-use electronics since the OES program began operations in April, 2009. This achievement was, in large part, due to your efforts with residents and businesses in your communities from that date until December 2011. Together, we are furthering a cleaner environmental future for Ontario in a safe and responsible manner.

A handwritten signature in black ink, appearing to read "Jonathan Spencer", is written over a thin horizontal line.
